The most interesting facets of Cologne's past and present! This walk takes you on a journey through time with insights into the Roman Colonia, the medieval city of churches, guilds and merchants, through war destruction and reconstruction to modern urban development and today's Cologne with its unique Cologne lifestyle. A particular highlight is the World Heritage Site of Cologne Cathedral. Its extraordinary dimensions, the long history of its construction, the most famous pieces of interior design, the most curious details: this exterior tour is a special experience, but also the perfect preparation or complement to an individual interior tour.
