

Best of Mobilé shadow theatre

Entertainment & Shows

Moving Shadows is the most successful European shadow theatre.

With "Moving Shadows", the Mobilés are winners of the French Super Talent and two-time winners of one of the largest theatre festivals in the world.

The mysterious shadow play made from human bodies transports you into a wonderful world. With elegance and perfection, the artists create landscapes, animals, machines and inspiring stories using only their bodies. Within seconds, the motifs emerge from the realm of shadows. Moving Shadows awakens associations and emotions.

Stirring music and projections emphasise the fabulous adventure. The virtuoso interplay of shapes enchants with wonderful narrative art and visual impact: from poetically touching to wittily spectacular.
