Stroll through Kassel's shopping mile in the city centre

All roads lead to the city centre

With its three shopping galleries and around 600 specialist shops in the pedestrian zone, Kassel's city centre is a true shopper's paradise for all fashion and shopping enthusiasts, offering everything from sporty fashion to exclusive evening dresses. Many specialist shops ensure that no shopping wish remains unfulfilled.

Kassel's city centre is always easy to reach. A wide range of public transport services with bus and tram connections take you directly to the heart of the city - Königsstraße. In addition, there are 10,000 parking spaces directly in the city centre. Both services ensure the best connections and short distances. The numerous cafés, restaurants and food courts in the galleries are also a great place to feast and take a break.

With the Treppenstrasse Germany's first planned pedestrian zone was inaugurated in 1953. It takes visitors to Kassel directly from the main railway station into the bustling city centre. They have a fantastic view of the centrally located Friedrichsplatz, the largest open space in the city centre, and the gateway to the Karlsaue. This is where the historical ambience of the 1950s meets an urban attitude to life. The perfect place to round off an extensive shopping spree in the city.

Address:

Obere Königsstraße
34117 Kassel - Mitte
