## Listening & experiencing: the new music of today

In Cologne, eight bridges cross the Rhine — and ACHT BRÜCKEN (Eight Bridges) is the name of the festival that brings new music every year to the effervescent banks of expanded music awareness. The festival is designed to reach a wide audience — at concerts, films, exhibitions, presentations and interactive workshops. Experience innovative contemporary music — not only by listening but also by finding out about the concepts on which it's based and opening up to multifaceted impressions. It's "bridge music" for the mind and the senses.
