

I.M (MONSTA X) - presents Off The Beat World Tour 2024

Sonstiges

I.M (Im Chang-Kyun) is a member and the lead rapper of the Korean boy group, MONSTA X, who debuted in 2015. Even as the youngest member of the group, I.M has shown his talent and potential as a soloist through numerous mixtapes and solo EPs, where he contributed to the composing, arranging, and writing of the lyrics. His solo debut EP "DUALITY", released in February 2021, has gained massive success with five tracks ranking in Billboard's World Digital Song Sales Chart, reaching 8.5 million views on YouTube for his lead track, "God Damn", music video and holds over 15.9 million streams on Spotify. While remaining a part of MONSTA X, I.M is currently focusing more on his solo career. With the second EP "OVERDRIVE" released under Sony Music Entertainment Korea in June 2023, he showed a wider range of skills with a style change in his music compared to his work with MONSTA X. This EP ranked first in 14 countries on the iTunes Global Chart and achieved over 1 million streams within 24 hours of the release, which led to this extended playlist to place on the Melon Hall of Fame. The album carefully sets out the musical worldview pursued by I.M as a soloist through deep, sophisticated sounds and delicate melodies. I.M has been showing great success and growth as he continues to reveal a more unique side of him as well as connects with his fans through his latest albums and singles, such as his debut EP "Duality," his last album "Overdrive," and his latest single "Slowly." All five songs in the "Duality" album charted on Billboard's World Digital Song Sales Chart and has about 45 million all time global streams. With his third EP "Off The Beat," released earlier in April 2024, I.M continued to delve deeper into the uncharted territory, carefully setting out the musical worldview pursued by the artist as a soloist. With six new tracks, each embodying a unique story and sound, I.M proved his talent as a producer, singer-songwriter, and rapper with genuine spirit and avant-garde persona. Alongside album promotions. I.M is gearing up to meet his global fans across Europe, North America and Asia with his first-ever solo tour, 'Off The Beat,' scheduled from July to September.
