

Heilkräuter-Labyrinth-Garten

parks and gardens

guided tour

In the garden area bordering on a woodland, colorful perennial beds, vegetables in permaculture and 'spontaneous vegetation' alternate harmoniously on 4,000 m². The heart of the garden is a medicinal and aromatic herb labyrinth with a collection of over 200 different, mostly domestic varieties, but also ethnobotanical specialties.

Other focal points in the borders are old cultivated plants, some of which have been forgotten, insect-friendly perennials, TCM medicinal herbs and delicious berries.

In the near-natural garden there are secluded seats, e.g. the apple tree porch swing, to discover and various small water points where the ducks also feel comfortable.

A variety of local herbs and vegetables are for sale from careful propagation.

Perennial exchange for the days of the open garden and sale of over 200 types of medicinal, aromatic and vegetable plants. Idyllic and very quiet guest rooms in the countryside.

Guided tours and workshops on topics related to medicinal and aromatic herbs, smoking with local herbs, herbal liqueurs & medicinal tinctures, tea mixtures from our own garden, historical vegetables and permaculture for small groups on request

- Suitable for bicycle groups on request
- Coffee and cake on the days of the open garden and on request

PriceInfo

A donation of 2 € is requested on the days of the open garden.
