

Children's ski race Brunni Kids Race 2025

GuidleProxy

Race for a real medal just like the grown-ups. Let your offspring compete against the others in the public Brunni Kids Race!

Has your child made good progress this winter? Would he or she like to compete like the big boys and win a real medal? Just like in the World Cup, the little racers start from the starting area with a real starting gate and race through the gates on the closed-off course. Cheered on by the many parents at the edge of the piste, the children feel like the big ski stars.

The children's ski race "Brunni Kids Race" is ideal for children from 5 to around 15 years of age. The kids ski a child-friendly giant slalom with real timekeeping on a prepared blue slope. Like the adults, they receive a start number and - if they ski fast enough - a medal at the award ceremony. A ranking list with times will be issued. Of course, we take the age categories into account.
