

Hölloch Parcours

Guidle.com

Adventurous short expedition in one of the largest cave systems in the world (over 200 km explored)! Suitable for families (children from 9 years), couples, individuals.

Dive into the fascinating cave world and learn from our qualified cave guides more about the history of the hellhole, its origin as well as about the existing rock types and cave inhabitants. Experience what true darkness is when you turn off the light and enjoy the acoustics of the cave with its countless different sounds. An intense cave experience, a real adventure you will all rave about for a long time to come!

The exciting tour leads through different passages of the cave system, which the first Hölloch researchers discovered more than one hundred years ago with nail shoes and candle lanterns. It is a small expedition, i.e. you cannot always walk upright, but there are areas where you have to climb, crawl, climb up or down a ladder or even slip through a narrower area. But don't worry, it won't be that tight and the tour is also easy to manage with normal fitness.
