

## Lucerne bread market

GuideProxy

### The bread market takes place once in spring and once in fall.

A variety of breads and pastries are on sale. The products made on site, such as bread from the wood-fired oven, doughnuts, Zigerkrapfen, waffles, pizzas and cheese slices, are very popular. A real hit are the plaits, which are made from scratch at the bread market: dough, braiding, baking in the wood-fired oven - simply delicious.

The bread market may be canceled if the weather is very bad and rainy. The reason: the bread and baked goods become moist and spongy and lose quality. In case of bad weather, please check the website: [www.pfistern.com](http://www.pfistern.com)
