

## STERNGUCKER NACHT

Guidle.com

### TRAVEL THROUGH THE GALAXY - An astronomical journey of discovery with children.

We are amazed when we stand in front of something unknown, big and beautiful. And almost nothing is bigger and more beautiful than the starry sky. On this experience with an overnight stay on Stoos, you will experience the wonders of our solar system. The meeting point for this journey through the galaxy is Stoos, a car-free natural paradise high above Lake Lucerne. With state-of-the-art telescopes and our "cosmic tour guide" Erich Strehler, you will observe constellations, planets, the moon as well as distant galaxies and gigantic clouds of gas and dust in which new stars are born. An overwhelming experience for young and old!

And if the weather doesn't play ball? Then the nearby Spacedome will bring the universe to you. In this mobile planetarium, you can experience an interactive, virtual tour with space simulation.

After these galactic impressions, you can end the evening around the campfire and simply enjoy the sea of stars above Stoos. Family tents are already set up for the night.

#### PROGRAMME

Individual arrival

- 12:30 am - 2.00 pm: Check-in and set-up

- 14:00: Start of the official program

Varied program from 2.00 pm:

- Planet trail

#### Venue:

6433 Stoos
