A gem of good food in the heart of Lucerne, this timeless destination is perfect for meeting up with friends and family.

Get away from it all and enjoy seeing the world through rose-tinted glasses for a while. The La vie en rose offers varied cuisine: mornings - lunchtimes - evenings.

Mornings

Savour Bachmann coffee specialities and build up your strength for the day over breakfast. Where Lucerne life happens, where you like to meet friends and business partners, feel good and enjoy the world through rose-coloured glasses for a few moments of pleasure.

Lunchtimes

New menu creations every day. Feel free to add a salad or a soup. Also available: pasta and pizza dishes. And discerning diners will appreciate the tartar and quiche creations on the menu. A tasty dessert is just the thing for rounding off your lunchtime break.

Evenings

Enjoy an aperitif or beer in the homely ambience. Snacks include pizza, savoury tarts and other specialities of the house.

Blend of five elements

The La vie en rose is the brainchild of Lucerne architect Marc Jöhl. He has created a blend of the five elements fire, water, wood, metal and earth to produce an eatery imbued with a feel-good atmosphere.
