

LUZ Lakeside Bistro

Robert Kittel, Luzern Tourismus

The LUZ Seebistro features fine fin-de-siècle detailing. Benefitting from an enviable over-water location not far from the station, the premises used to be a waterways ticket office.

In fine weather, patrons on the large terrace watching the paddle steamers come and go can imagine themselves in some southerly resort.

The cuisine served at the LUZ Seebistro is seasonal. The focus in the summer is on specialities from the grill and salads; in winter, warming soups and dishes from the oven. Regular music sessions are also a feature.

The LUZ is a walk-in restaurant: reservations for drinks and coffees are possible only for groups of 10 or more.
