

Restaurant Gerbi

Philippe Hahn - www.philippehahn.com

Freshly caught fish and succulent meat from the pasture combined with Mediterranean cuisine and a fine drop from the wine cellar will make every gourmet rave.

A highlight is flambéing on grandmother's stove. Experience up close at your table how the crêpes Suzette or a fine piece of meat matures into a delicacy on your plate.

At lunchtime, you can choose between the Quick Lunch or the Puzzle Menu to suit your mood and enjoy the beautiful view of Lake Lucerne.
