

## Facades tell stories

Luzern Tourismus, Laila Bosco

**Lucerne's facades exert a fascination thanks to their tales of magic and customs, trades and guilds.**

We look at the houses with fresh eyes as we pass and discover who painted the "devil on the wall". On the tour, learn about the artists and their works: from grisaille painting to American street art, from Seraphin Weingartner and Hans Erni to "sprayfrei", the city's anti-graffiti campaign.
