

Gold panning in the Napf area

Gold panning in the Napf area - © Luzern Tourismus, Beat Brechbühl

Let yourself be gripped by the intoxication of Napfgold!

You will not find gold mines in their entirety in the Entlebuch. But it is certain that you will return home with gold in your sack. In the wild Napf area, the Fontanne meanders through the creeks and transports its debris with it, in which you will discover one or the other glint of pure Napf gold. Gsto Unternährer and his team know the streams around Romoos like the back of their hand and will show you the best places to pan for gold. With shovel and pan, you will set to work and sift through the debris. When at the end of the panning process something still glitters, you will be beaming - not with wealth, but with happiness.

Whether it's a family, company or club outing, with friends or alone - Gsto and his team from Napfgolderlebniss will put together an exciting programme for every wish.

Features:

Target group

Individual guests, groups, families

Price:

from 30 CHF per Person/Offer
