UNESCO Biosphäre Entlebuch / Laila Bosco, laila_bosco

Homemade cosmetic products

Silvia Limacher, a qualified chemist with a federal certificate of competence, produces a wide range of cosmetic products such as creams, ointments, lip balms, soaps and oils made from herbs under her "CHRÜTLIMACHER" brand. She has set up a smart, spacious farm shop in the former pigsty. All products are homemade, contain no artificial preservatives or colourings and are made according to her own recipes. Most of the herbs she uses grow in her neighbourhood. Only a few medicinal plants are bought in. The products are made, bottled and packaged with a lot of love and manual labour. This is why Silvia Limacher is also one of the partner companies of the UNESCO Biosphere Entlebuch. You can find much more information in the shop on her homepage.
