

WanderWunder Schwyz: circular hike around the great Mythen

Erlebnisregion Mythen, Region Luzern-Vierwaldstättersee

Tour Dates:

Recommended Seasons:

JAN	FEB	MRZ	APR	MAI	JUN
JUL	AUG	SEP	OKT	NOV	DEZ

The panoramic circular hike from the Rotenflue via the beautiful "Zwüschet Mythen" back to the middle station of the Rotenflue railway in the Mythen region promises exceptional views and wildlife observation.

The Grosse Mythen offer more than just a summit hike: the circular hike around the Schwyz landmark promises fantastic views and wildlife observations. After the ascent, you start with the Rotenfluebahn from the "Rotenflue" mountain station in the direction of "Holzegg" and "Zwüschet Mythen". Before the path leads down again via the "Günterigs" in the direction of the "Rätigs" middle station of the Rotenfluebahn, an extraordinary view of the mountains and lakes of Central Switzerland opens up.

The hike leads through the "Mythenbann", the oldest hunting ban in Switzerland dating from 1492, where, depending on the season, wild animals such as chamois, eagles and marmots can be seen.

Ratings:

- ★★★★☆ Panorama
- ★★☆☆☆ Kondition

Address:

6432 Rickenbach bei Schwyz

Erlebnisregion Mythen

Mountain restaurants are along the way

Between the Rotenflue and "Zwüschet Mythen" there are four mountain restaurants along the trail: the Gipfelstübli restaurant on the Rotenflue, the Skihaus Holzegg, the Berggasthaus Holzegg and the alpine restaurant Zwüschet Mythen.

More ambitious variant with ascent

Start of the excursion is in Rickenbach: Take the Rotenfluebahn to the "Rätigs" to the middle station, where the hike via "Trogeli" over the sheep pasture and through the forest to the "Günterigs" begins. From there the hike leads over a short steep ascent on a well-maintained trail through forest sections and over rock rubble to "Zwüschet Mythen", overcoming an altitude difference of about 300 metres. Afterwards the more relaxing part of the hike begins, where chamois are also most common. From the alp "Zwüschet Mythen", the trail leads behind the Grosse Mythen towards "Holzegg". With a bit of luck, it is not too rare to see a marmot family at Holzegg. From "Holzegg" there is a last ascent to Rotenflue, where the cable car takes you back down to the valley.

The starting point is Rickenbach above Schwyz, where both the Rotenflue cable car and the starting point for the hiking variant without the cable car are located.

Option 1: Take the gondola lift directly to the Rotenflue. From there on foot via Holzegg-Alp Zwüschet Mythen- to the vantage point Zwüschet Mythen and via the Günterigs to the middle station of the Rotenfluebahn in the "Rätigs".

Option 2: From the Rätigs middle station continue via Hasli-Günterigs-Zwüschet Mythen-Alp Zwüschet Mythen-Holzegg- on foot back via Hasli-Rätigs-Huserenberg-Rickenbach.

Option 3: Take the cable car directly to the Rotenflue. From there on foot via Holzegg-Alp Zwüschet Mythen- to the vantage point Zwüschet Mythen and back to the Rotenflue or from Holzegg to Rickenbach on foot.
