be called anything else: the Brother Klaus Fountain from 1608. The 16th century guild house and the baroque town hall, which has represented the canton of Obwalden for 600 years, are also remarkable. There is even more cantonal history in the Historical Museum in Sarnen, which also stands for folklore, customs, arts and crafts. The route leads directly past it. Along the Sarner Aa you reach the small Wichelsee. The reservoir is a nature reserve and provides a retreat for many birds. In Alpnachstad, the world's steepest cogwheel railway, with a gradient of up to 48 percent, has been leading up to the 2128-metre-high Pilatus in the heart of Switzerland since 1889. Also in the heart of Switzerland is Lake Alpnach, a branch of Lake Lucerne. Always along the water, in an archaic and geologically interesting area, you reach the glassblowing village of Hergiswil. In the Glasi Hergiswil you can watch the glassblowers blowing glass. From a bird's-eye view a cross, along the lake a no less tricky thing: Lake Lucerne. Passing pretty bathing spots, you reach Lucerne, the social and cultural centre of Central Switzerland. With the Chapel and Reuss bridges, water tower, KKL (Culture and Congress Centre), Transport Museum, picturesque old town, nearby Mount Pilatus and the Rigi (Queen of the Mountains), it is one of the most beautiful and popular cities in Switzerland. Treat yourself to a refreshment on one of the wonderful seated squares in the new and old town of Lucerne. How about a glass of wine at Opus near the Jesuit Church or a coffee at the Seebistro Luz on Lake Lucerne. You can get a cool beer at Bierliebe on the Reuss. Then continue in the direction of the Museum of Transport. Halfway along, you will come to a cycle path to the left of the main road. Follow cycle route No. 38 Luzern-Hinterland Rigi until you reach Weggis. At the Museum of Transport, the route turns off to the left and climbs slightly towards Büttenen and Meggerwald. The climb is rewarded with magnificent views of Lake Lucerne and the Rigi. The route continues to Küsnacht am Rigi - a stop is recommended here, either for a dip in the cool water or a refreshment in the small old town. From here you continue along route no. 38 until you reach your destination of the day, Weggis, after about 30 minutes.
