Rock

Crystal Fighters, the Basque inspired, World influenced alternative band have announced details of the release of their 5th studio album LIGHT + alongside a comprehensive European Tour for February 2024.

The album LIGHT+ sees the band's return to the sound that their global fanbase knows and loves - packed full of songs that look set to become firm festival classics in the years to come.

Melding traditional Basque instruments along with searing electronics and soaring hooks, LIGHT+ is a celebration of life and the light in each one of us that shines bright in the darkness.
