Multi-day highlight of ColognePride

Mehrtägiges Highlight des ColognePride

The queer-politically relevant street festival is one of the largest street festivals in Cologne and, together with the CSD demo, forms the crowning finale of ColognePride, which stands up for the rights of gays, lesbians, bisexuals, transsexuals, transgender people, queer people, intersexuals, asexuals and other identities with numerous activities every year.

Around the Heumarkt, Gürzenich and Alter Markt, there will be lots of extraordinary performances, political speeches and artistic performances on several stages - both national and international. You are heartily invited to join in - however colourful you are. Cologne loves you!
