ABBA Gold - the concert show - #Anniversary-Tour

#Anniversary-Tour

ABBA and their music are a phenomenon that can only be adequately described in superlatives. To this day, the name ABBA is known to one in three people around the world and the immortal melodies of the four Swedes are familiar to many.

The wonderful singers and musicians of the successful "ABBA GOLD - The Concert Show" are probably the performers who come as close as few others to the style-defining gestures of the original artists. Highly musical right down to the tips of their toes and with performances of the highest perfection, "ABBA GOLD - The Concert Show" is an artistically impressive revival. The ABBA Gold artists bring the typical ABBA performance - sometimes dazzling, sometimes solemn - so masterfully to the stage that you can tell that they have internalized the original with every fibre of their hearts, souls and minds.

Of course, the show is still ultra-modern. The original ABBA feeling is presented in the "here and now" using the latest stage show technology. From the original costumes to the Swedish accent of the admired role models - even the smallest detail is authentically ABBA.

A joyride out of everyday life:

The audience thanks the artists with visible euphoria and feelings of happiness during the show. For visitors, every concert is a veritable joyride away from everyday life. Here you can unwind and at the same time indulge in the nostalgic memories that everyone associates with ABBA music.

very high from the very beginning - not least because the competition has never slept. Not until today... There are many stage productions that try to portray the character of ABBA and its music faithfully or adapted. Keeping up with them and following the claim of not only being good, but perhaps even better, is always a challenge artistically and in terms of production and requires high level quality in artistic performance and musicality. ABBA GOLD has effortlessly mastered both in 20 years, established itself perfectly in cultural life, collected great reviews and built up a large fan base of its own. With "ABBA GOLD - The Concert Show", the ABBA myth is perfectly revived - overwhelming, moving, captivating and unforgettable.

50 years of Brighton and Waterloo

And another anniversary awaits ABBA fans in 2024: 50 years ago in April, ABBA's worldwide triumphal march began in Brighton at the European Song Contest and continued unabated for almost ten years. The winning song back then was Waterloo and delighted the music world worldwide. The event was broadcast in 32 countries and watched by 500 million television viewers. Although ABBA had already been active as a pop music group before 1974 and was not unknown in Sweden, the real, global big bang of enthusiasm came with the Grand Prix performance on April 6, 1974.

The rest is history. Waterloo was followed by I do, I do, I do at number one in Switzerland and South Africa, S.O.S at number one in Germany and in the top six in the UK. Starting in Australia in 1975, Mamma Mia then generated the mass enthusiasm that continues to this day, decades after their break-up, and which brought ABBA almost 400 million (!) records and sound carriers sold. From then on, ABBA dominated the charts worldwide for years and not a year went by without several super hits, which Agnetha, Anni-Frid, Benny and Björn produced in very short succession at the time.
