

Guided tour of the village - Historic House Trail Bönigen

Excursions for guests

Bönigen Dorfundgang historische Häuser

Guided tour through the historic houses of Bönigen. Learn many exciting things about the old buildings and customs of Bönigen from the 16th - 18th century.

Bönigen, has an old part of the village of national importance. Wooden houses from the 16th to the 19th century characterize the village center, which fortunately has never been destroyed by a major fire. Since 1549, numerous buildings from every construction period have been preserved here in a confined space. Wood was a suitable material for building houses for the people of Bönig from early on. At first the houses were functional buildings, then from the 16th century the urge for artistic design awoke. The proof of this is the historical village center with its carved wooden houses from the 16th - 18th centuries.
