

Soapbox race

Sporting activities

Creative

The participants construct adventurous and creative soapboxes from flexible kits.

The groups share tasks such as car body design, marketing concept and construction. This means that everyone is involved and can contribute their individual skills and personal strengths. After construction, each "racing team" presents its vehicle in an entertaining car show. Here, the special features of your own soapbox can be showcased.

The event comes to an eventful conclusion in the "big race" with drivers and fellow players pushing the car. Cheer your team on with motivating battle cries!

Planning and building the soapboxes together promotes cooperation and cohesion among the participants. This allows the group to experience a new sense of togetherness even outside of everyday working life.

Take the enthusiasm and motivation from this day back to your company!
