

City tour with the City Train

All aboard! Discover the city of Lucerne in just 40 minutes on the old-style blue City Train.

Thanks to comfortable seating with auxiliary heating and brief information via headphones in 16 languages, this tour is a wonderful experience in all weathers.

The City Train takes you to the tourist highlights of the city centre as you learn a great deal about the fascinating history of Lucerne. Did you know, for example, that the Spreuer Bridge got its name because in the past this was the only place citizens were allowed to discharge chaff.
