Weryhorny is the most challenging downhill course in the HOT-TRAIL Bikepark Wiriehorn. Downhill races are held on it every year.

Action, adrenaline and feelings of happiness: The Weryhorny trail is the most difficult trail in the Bikepark Wiriehorn (S3) and only suitable for advanced riders. It requires good technique because it leads over roots, stones and partly through built steep face curves. In return, it guarantees a lot of riding fun among like-minded people. Incidentally, many events of the iXS Downhill Cup have already been held on this route.

The Wiriehorn chairlift takes you and your bike comfortably up the mountain. So nothing stands in the way of a whole series of downhill rides. The trail ends directly at the valley station. Showers, a washing facility and a barbecue area are also available here. Camping is permitted in the large car park (for a fee).
