

ODYSSEUM

Museum/Exhibition

www.badurina.de

Play, fun, movement and learning - all together. The Odysseum adventure museum in Cologne is unique in Germany: at around 200 experience stations for different age groups, you go on an exciting and eventful journey of research and discovery. Immerse yourself in exciting worlds of experience around the themes of everyday life, technology, science, space travel and the future. In the "Museum mit der Maus" (Museum with the Mouse), you can experience factual stories from the WDR's "Sendung mit der Maus" live. Small things become very big here and thus much easier to understand.

Exciting temporary exhibitions, a 3D cinema with changing films and exciting changing themes await you! The best thing about the Odysseum: participation and hands-on experience are expressly encouraged. Be curious.

The exhibition is easily accessible for all guests, including wheelchair users, and easy to navigate.
