Landscape window Tange

The "Water" landscape window is one of five landscape windows in the Ammerland. They were built in 2002 and indicate the special features of the region. The "tower of the dike judge" in the district of Tange is a symbol of the region's abundance of water. It is a sight on bike tour 17 "Water-rich Fehngebiet", which runs for 45 kilometers past water structures such as river dykes, fen canals or pumping stations.
