

Privatgarten Stolle

Park/Garden

garten-stolle-wiefelstede-6 - © Ferdinand Graf Luckner

1,500 m² perennial garden of the Stolle family in Wiefelstede.

In the beautiful Wiefelstede with its old St. Johannes Church there is the newly designed private garden Stolle on the outskirts. In 2012, the owners created their dream garden here on a 1,500 m² property.

Colored flowerbeds and garden rooms with a multitude of different perennials and bulb flowers, supplemented by grasses and unusual trees, characterize the garden. Everything is framed by older yew trees, rhododendrons, thuja and newly planted beech hedges. Various seating groups invite you to linger and watch.

- The garden is most beautiful in the months of May to October.
- The Rhododendron Park Gristede is very close by.
- Suitable for bicycle groups on request

More Information:

Sufficient parking space is available on the nearby Schützenplatz (next to the "Hörner Krog" restaurant).

Openinghours

Also open for groups on request.
