

## Grand Tour of Switzerland: Niesen photo spot

Point of view   Disability Access   summer   winter

### Discover the photo spot on the Niesen overlooking Lake Thun

The Niesen is one of the most famous peaks in the Bernese Oberland – not least because of its iconic pyramid-like shape, its stunning location high above Lake Thun and the longest staircase in the world. An old-time funicular railway dating from 1910 transports visitors to the summit of the Niesen in two stages.

From here, it is just a few steps along an easy path to the viewing platform and the photo spot, where visitors will see the peaks of Eiger, Mönch and Jungfrau in the background. A short stroll from the photo spot then brings you to the Berghaus Niesen Kulm restaurant, where culinary delights await.
