

Melchsee-Frutt

Samuel Büttler Photographie - info@samuelbuettler.ch

Melchsee-Frutt is located on a high plateau at 1920 metres above sea level. A picturesque high alp with flowery meadows, pure mountain air, unmistakable peaks and crystal-clear mountain lakes.

In summer, a variety of cycling and hiking trails await you. Passionate fishermen also get their money's worth on Melchsee-Frutt with its three deep blue mountain lakes. The viewing platform, which is just under 40 metres above Lake Melchsee, offers a breathtaking view of the imposing mountain panorama and a dizzying view of Lake Melchsee. From there, the Frutt train travelling between Frutt Dorf and Tannalp can be seen from time to time. For children, the "uf dr Wildi" playground and the Fruttli trail around Lake Melchsee offer the best entertainment.

Winter enthusiasts of all ages will find something to suit them on the snow-sure high plateau. 36 kilometres of pistes and 16 transport facilities open up the Melchsee-Frutt winter sports area. The little ones can have fun in the Fruttli-Land adventure area, while the older ones can glide over gentle hills or conquer challenging steep slopes. Those looking for high jumps and challenging rails will get their money's worth at fruttpark.ch.
