

GAHRENS + BATTERMANN

Event technology

Weltdiabetestag - © GAHRENS + BATTERMANN

We have been inspiring people with our event technology and event services since 1983.

For a successful event, whether live, hybrid or digital, it takes more than aluminium trusses, lighting and sound technology. Gahrens + Battermann has been proving this as an event service provider since 1983. Thanks to years of experience in the field of corporate events, trade fairs and location partnerships, G+B is one step ahead when it comes to customised events. We achieve this through innovative technology and a high degree of individualisation. Spurred on by the growing demands of our customers, our technology experts are constantly developing new innovative solutions - for grandiose events that stay in your head. We also develop creative ideas with you and for you in the run-up to your event and visualise them in 360 degrees for a better idea. We also offer digital event solutions in the areas of participant management, interactive workshops and much more. We inspire with creative and targeted solutions - from planning and realisation to digital event solutions for smart events.
